User

As a user, I want to be able to create lists so I can organize my product needs.

As a user, I want to be able to delete lists so I don't have lists I don't need anymore.

As a user, I want to be able to write down what things I need to buy so I can remember and use the program's features.

As a user, I want to know what ingredients I need to purchase to make a recipe.

As a user, I want to know what parts I need to purchase to make something bigger.

As a user, I want to be able to give and update my health and dietary preferences to make sure I buy the right things.

As a user, I want to know which store(s) have the products I want so I know where to go.

As a user, I want to know which store(s) will get me the best deal, time-wise, to save time.

As a user, I want to know which store(s) will get me the best deal, money-wise, to save money.

As a user, I want to be able to check off products as I am shopping so I know what I have left.

As a user, I want to know when I have completed my shopping list so I know that I'm done.

As a user, I want to be able to share a list with other users so they can use it.

As a user, I want to be able to unshare a list with other users so I can remove unwanted people.

Temporary User

As a temporary user, I want to be able to use the program in its entirety without having to make an account to have convenience.

Admin

As an admin, I want to be able to manage the stores included in the database to be able to have all the stores I want.

As an admin, I want to be able to manage the product information for each store in the database to ensure it is accurate.

As an admin, I want to be able to view and manage users and their lists anonymously in the database to prevent misuse.
